To whom it may concern,

I highly recommend Jordan Benner for employment with your firm. I hired Jordan in June 2008, to fill the position of Project Manager. Right from the start, he impressed me with his work ethic and his ability to quickly learn the multitude of tasks required satisfying our customers' needs in the field and office, most impressive was his desire to immerse himself in intense tasks given working with selected clientele. Please call me at the above phone number if you have any questions.
